

BIO-DISTRESS & NEW HEALTH COMMONS

Is it how we handle things?

MOVEMENT

Human and Biological Conditions.

Natural Changes!

Man Made CHANGES.

BIO-DISTRESS

Land Use issues:

In the Past → it's been Geographic.

Earthquakes.

Destruction of Rainforest.

Pollution

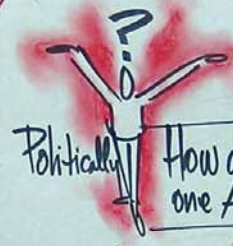

All drivers on the "Decade Map" have direct Impact to BIO-DISTRESS.

We need to think in terms of SCIENTIFIC Solutions.

Engage the Public and Industry.

It needs to adapt to a Changing Environment. Culturally Congruent. FAST

The New Health Commons is driving to a Solution but some steps are missing.

Politically

How does one ACT?

"Commons" as a Mindset... What would it look like.

More of a Positive Building

the Bowl It's a Blender!!

We have a HEALTH COMMONS that's not WORKING.

The term "Commons" is not Commonly Understood.

We need CLARITY — What do we mean by a "Health Commons"?

The "Commons" needs to be structured around a Set of PRIORITIES and where it will have the Biggest IMPACT!

Social
Justice.
Disparities.

● Govt.
Officials.

● Industry

● Civil
Society.

People dealing w/People!

There is no one out
there with:

★ Clear
Independent
Credibility

we need a
Philanthropic
Role.

● We often view "Culture"
as a Problem → "look@these dumb people"
We should look @ Culture as an ALLY.

- Class Structure in the Profession
 - RACISM.
 - CLASSICISM
- has to be
a Major part
of what we're
doing.

CREATING the
SPACE for ACTION!

CRECIBILITY.

The New
Is a PUBLIC
SPACE w/ legal legitimacy.

Political
Figures

→ Where do
we start?
Bottom or
from the
top?

● There is a huge Gap in the way we
USE language and Metaphor.

When we USE WORDS - let's think more
deeply - be more CRITICAL.
We need to be disciplined in HOW we are
using LANGUAGE.
