

# Collaboration

- What collaboration means to convergence
- Seeds to be cultivated
  - AVMA-AMA: national level
  - Regional: Mekong Delta Surveillance Network
  - Provincial: Mozambique
- Diffusion Strategy: Creating More Opps
  - Steps for collaborating around vision
  - Workshops/meetings on getting opinion leaders at all levels on board
  - Establishing firm commitments to action
  - Evaluating the process of collaboration to convince others

# Collaboration

- What collaboration means to convergence
  - Levels of collaboration:
    - At the national, state/province, local levels
    - Including Government, NGO, private sector, citizens
    - Anywhere we find willing and relevant leaders

# Process of Collaboration

- Exploring/surveying potential issues/opps with end customers and then all affected communities
- Agreeing on scope/level/content of collaboration
  - Agreeing on ground rules, such as use of resources e.g. money
- Agree on benefits and establish measures of success

# Seeds for Cultivation

- AVMA-AMA
- Regional Surveillance Networks
- Mozambique private-public sector collaboration

# Diffusion Strategy

One approach to diffusing vision:

- Introducing vision to OIE/FAO/WHO
  - Importance of messengers come into play
- Have these entities discuss what convergence means thru a collaborative process
- Establishing firm commitments of action
