

9/13/07

SESSION 444

# OUR VISION

OPTIMAL GLOBAL  
HEALTH EMBRACING  
THE INTERDEPENDENCE OF

HUMANS, ANIMALS and the  
ENVIRONMENT.

EMBRACE  
is Proactive

This is "our end state" = no strategies  
= no "How's"

Adding  
the "Compelling need"??

Any Action? → Using transformational strategies.

Does it uniquely describe the issue?

Craft Findings  
Transformational  
Strategies.

?? Adding → Critical Interdependence.

It's a need - not just a fact.

We can create "findings" that lead to this vision
